Other	1,713	2,164
Unknown	1,172	1,298

**NOTE:** This data was drawn from performance reports submitted to OEO by the more than 100 nonprofit organizations and three units of local government operating homeless facilities in 53 counties that received ESG funding during FY 2003 and FY 2004. It does not include information from those organizations and units of local government that did not receive ESG funding in FY 2004 and FY 2003 nor does it contain any information from homeless facilities operating in the state's remaining 47 counties during those periods. Therefore, this information should not be viewed or presented as a complete count of the homeless population of North Carolina or as a complete listing of homeless facilities in NC. Further, it should be noted that approximately 30% of the nonprofit organizations that received ESG funding during the period were domestic violence centers. As a result, the number of people citing domestic violence as their primary cause of homelessness is disproportionately higher than the number of people reporting other causes.
